## **Links:**

Waffle join link: <https://waffle.io/eliaeiroa/AuctionNow/join>

GitHub link: <https://github.com/eliaeiroa/AuctionNow>

## **Weighing of user stories based on work:**

registration windows = 2 points

login portal = 2 points

creating forms = 5 points

database = 5 points

## **Sprint goal:**

In this first sprint we want to add the foundations of the system such as registration, login, and basic databases, as well as some of the basic forms that will be available on the website.
